(Tel.) 234196156
914306790 / 918540010

DISTRIBUIDORES OFICIAIS DE
www.klusdesign.eu

Os produtos Klus são propriedade da companhia Klus e estão protegidos pelas leis e patentes da Europa e Estados Unidos.

A New Estimated Time 7s, Lda tem como objetivo promover e proporcionar todos os serviços que até ao momento temos prestado, melhorando a oferta de produtos seguindo a linha de trabalho especializado que até agora temos feito.

Com armazém em Portugal e apoio de Espanha, repartimos os produtos especializando-nos em cada um deles para cada setor.

O objetivo da KLUS®, é criar um sistema de componentes que permitam configurar uma grande variedade de luminárias LED, dando soluções para diferentes necessidades, desenhos e formulas estéticas, cumprindo as altas expectativas dos nossos clientes.

Os nossos anos de experiência permitem oferecer acessoria personalizada, baseando-nos no nosso conhecimento, capacidade de inovação e grande variedade de produtos.

Dispondo de stock e infraestrutura adequada oferecemos produtos personalizados a cada cliente em um tempo de resposta dificilmente superável.

SERVIÇOS

LACADO DE PERFIL

Oferecemos a possibilidade de lacar PERFIL na cor indicada, de acordo com a classificação da cor RAL.

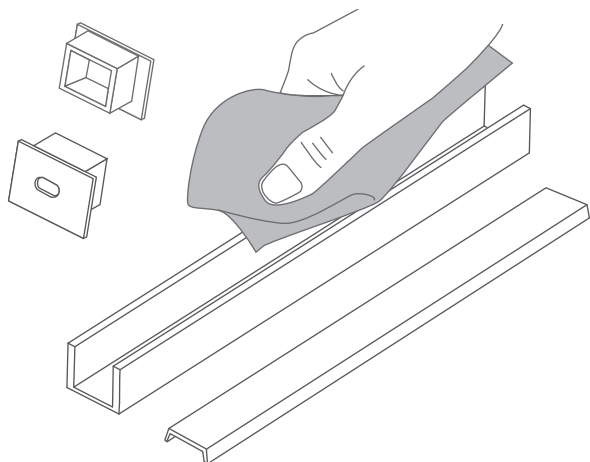

CURVADO DE PERFIL

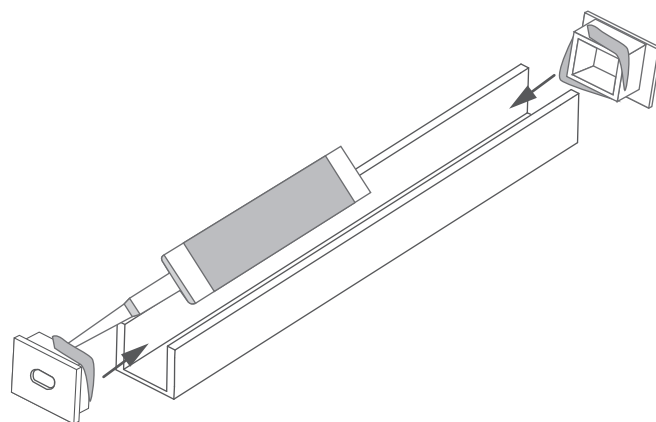

Colocamos à sua disposição a possibilidade de curvar uma ampla gama do nosso PERFIL.
PERFIL que pode ser curvo:
MICRO, MICRO-K, PDS4, REGULADOR, PDS4-K, PDSO, PDS-ZM, STOS, TRIADA, TRIADA-K, LIPOD, LOKOM, GIZA, GIP.
O raio mínimo de curvatura depende do modelo de perfil, que varia de 15cm para o MICRO-ALU, até 5m para o LIPOD.
Para mais informações, não hesite em nos contatar.

INSTRUÇÕES GERAIS / SEIAGEM DE LUMINARIA

1. Limpe o perfil e seus acessórios do pó ou sujeira.
Recomenda-se a utilização do produto de limpeza DOW CORNING R40.

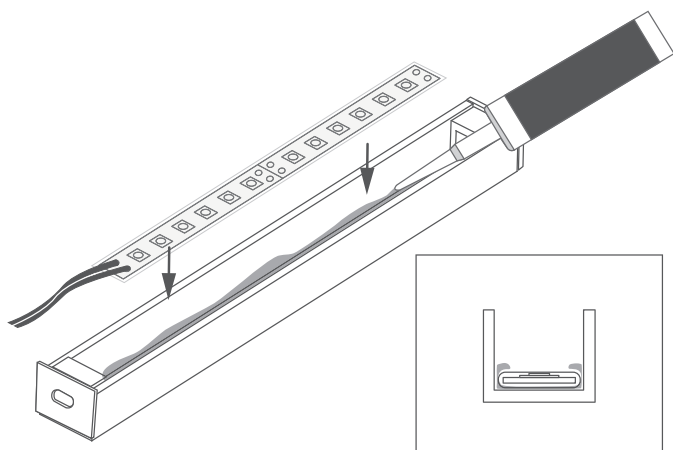

2. Aplique o adesivo nos TOPOS e insira-o em cada extremidade do perfil. Recomenda-se a utilização de silicone DOW CORNING DC799ET ou SIKASIL WS-6055

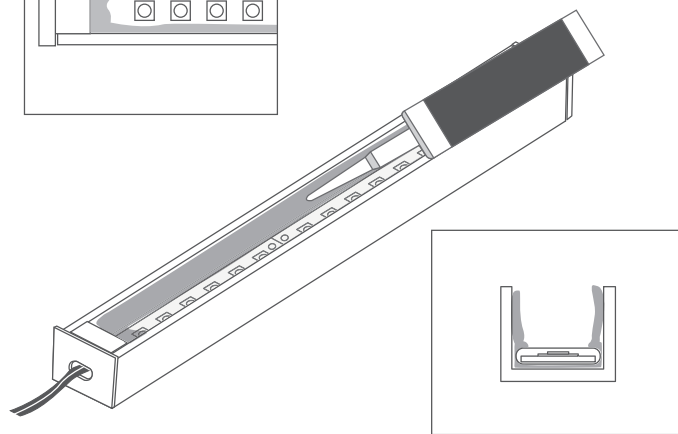

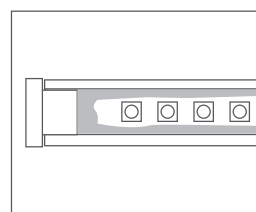

3. Aplique uma camada de silicone na base interna do perfil e coloque a faixa de LED sobre ele.

NOTA: A faixa de LED deve ter uma proteção IP65 mínima.
Recomenda-se a utilização de silicone DOW CORNING DC799ET ou SIKASIL WS-6055

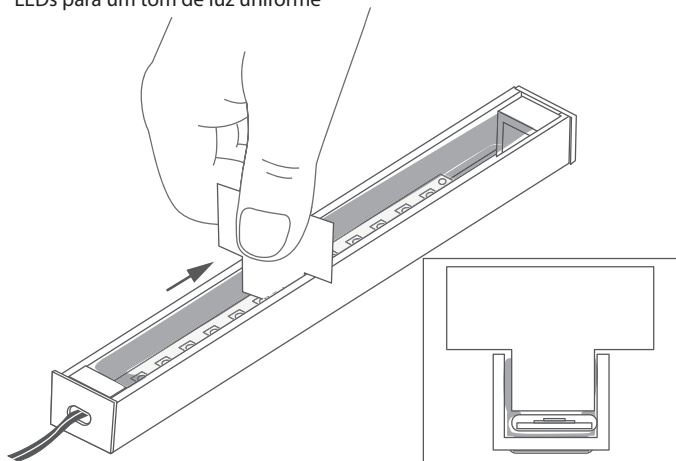

4. Aplique uma segunda camada de silicone nas paredes internas do perfil e no final dos TOPOS. Recomenda-se a utilização de silicone DOW CORNING DC799ET ou SIKASIL WS-6055

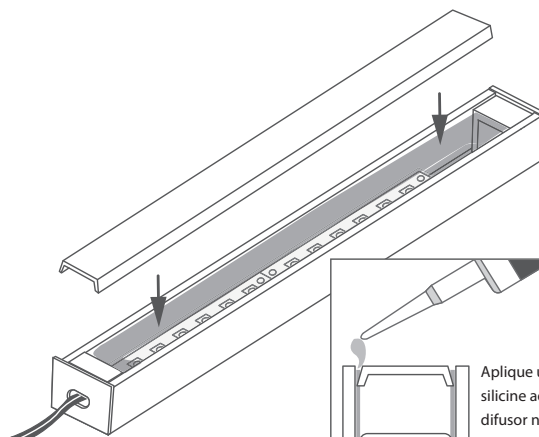

5. Remova o excesso de silicone com uma ferramenta retangular (por exemplo, um pedaço de papelão), tomando cuidado para não danificar a fita led.

A camada de silicone deve ser uniforme, evitando a sobreposição nos LEDs para um tom de luz uniforme

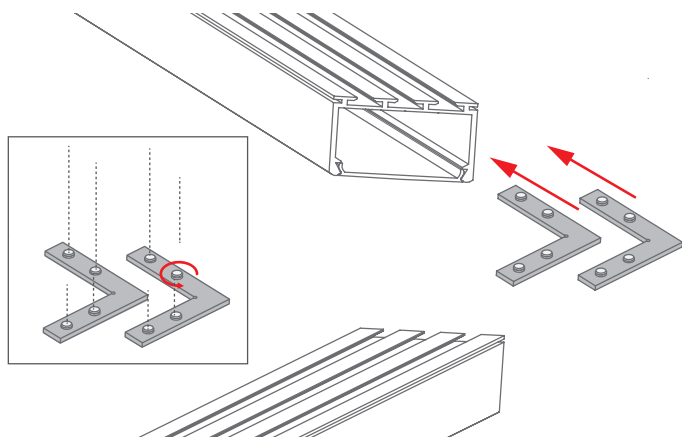

6. Insira o difusor. Para as luminárias seladas é aconselhável usar difusor HS
Se recomenda o uso de silicone DOW CORNING DC799ET o SIKASIL WS-6055.

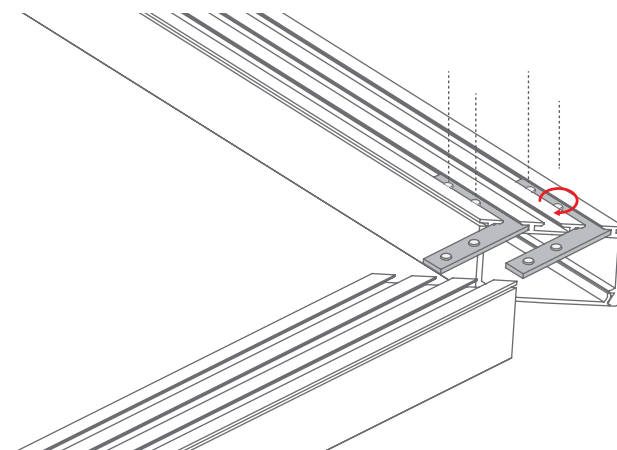

Aplique uma linha de silicone ao longo do difusor no local indicado.

INSTRUÇÕES GERAIS / UNIÃO DE PERFIL MEDIANTE CONECTORES ZM

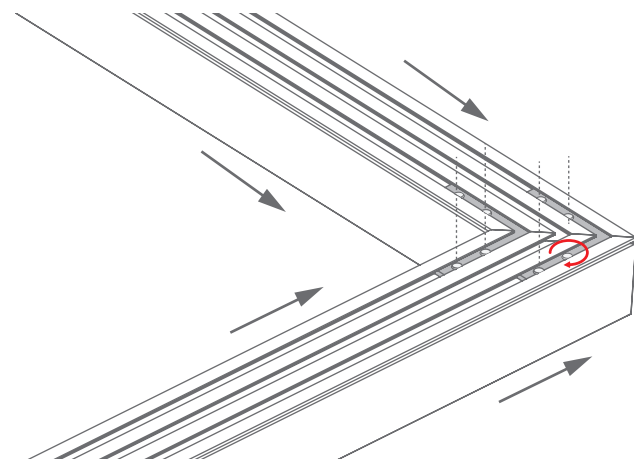

1. Utilizando chave sextavada, desaparafuse um pouco as porcas de cada conector para não interferir com a inserção da peça nos trilhos do perfil.

2. Aperte as porcas até que cada conector esteja preso nos trilhos do perfil.

3. Insira a outra seção do perfil, deslizando os conectores pelos trilhos.
 NOTA: É aconselhável aplicar pressão entre as duas seções do perfil enquanto ajusta as últimas porcas de cada conector para que não haja espaço entre os perfis.

General warranty terms for KLUŚ products and lighting components

KLUŚ company declares high quality of sold products and goods. "KLUŚ" Sylwester Kluś company based in Kamionka, at u. Świerkowa 6, 05-502, Piaseczno post office; NIP: 123-000-58-69 in this warranty card referred to as the "Warrantor".

General warranty terms

The Warrantor grants 24 month warranty from the date of purchase indicated on the purchase document provided that the Customer complies with the conditions set out in this warranty card.

The basis for the implementation of warranty is the presentation of the original purchase document at the time of making a complaint. The lack of original purchase document is the basis for refusal of complaint by the Warrantor. The warranty is valid only if the products are used according to the instructions, specifications and in compliance with technical knowledge. Conditions for installation and use are specified in the instructions for installation and operation, as well as on the website: www.klusdesign.pl

Unauthorized changes to products cause loss of warranty. Product modifications are acceptable only to the extent specified in writing in the instruction manual, provided that they are carried out in accordance with good practices and the operating manual.

Lighting fittings may not be exposed to temperatures in excess of the values given in the manuals, and in the case of fittings with LED light sources, they should be used at temperatures not exceeding 45 ° C. Supply voltage must not exceed the nominal value. KLUŚ company uses certified power supplies for fittings. Using low quality power supplies from other sources, without appropriate parameters and electrical safety measures, can cause damage to fittings and is not covered by the warranty. Do not use fittings in strong sunlight and, in particular, do not install them on roof flashings that heat up. Leaving a switched-on fitting installed on the sheet surface on a sunny day causes overheating and damage to LED light sources.

When installing LED fittings in sunny places in the supply circuit, use a dusk switch to prevent accidental activation during the day. Violation of the above terms and conditions will void the warranty. The Warrantor shall not be liable for damage resulting from improper installation, failure to comply with operational rules and for mechanical damage.

Complaints, consideration and handling.

Complaints must be submitted in writing to the following e-mail address:
comercial@net7.pt or fax. : +351 234 196 156 or by registered letter to New Estimated Time 7s, Lda - Rua S. Sebastião Nº 126 3810-187 Aveiro head office, and must contain the following information:

1. Copy of the fiscal purchase document with the number and date of purchase.
2. Proof of payment of the full value of the product under the complaint.
3. Explanation of the reason of complaint together with technical data from the rating plate, if the product has one.

Consideration of complaint is based on an examination of the product after the fulfillment of the above conditions listed in paragraphs 1-3. The person entitled to the warranty is obliged to deliver the product under the complaint to the Warrantor's head office. If the warranty is deemed acceptable, the cost of delivery by courier service to the person entitled to the warranty is borne by the Warrantor. The Warrantor does not cover any additional costs of assembly, disassembly or specialized transport of the products under the complaint. This warranty does exclude the liability for, among others, installation and servicing of products, as well as other damages resulting from improper use, installation or disassembly.

In the case of unjustified complaints, all transport costs of inspection costs are borne by the person entitled to the warranty. In the case of rejection of the claim, the person entitled to the warranty is responsible for claiming the product. Not claiming the product within 30 days from the date of decision on rejecting the claim entitles the Warrantor to once more request the acceptance of the product within 7 days, and in the case of not claiming the product under complaint within 10 days from the request, to its disposal. If the claim is deemed acceptable and the product is exchanged or is returned for money, the product under the complaint becomes the ownership of the Warrantor at the time of exchange or payment.

Warrantor: "KLUŚ" Sylwester Kluś company hopes you are satisfied with our products.

Do not hesitate to use our technical support through contact details on the website:
https://www.perfisled.com/klus/?page_id=8.
