KLUŚ Inspiring Solutions

PRODUCT DESCRIPTION

- Designed to reach an IP67 waterproof rating
- Ability to create a line of light
- Masking the channel edge

FINISH :

Silver anodized ☐

Black anodized ■

*Custom colors available upon request

TECHNICAL SPECIFICATION

Application

- construction of recessed lighting fixtures
- furniture lighting

Assembly

- with mounting adhesive

Additional information

- possibility of making a linear fixture with IP67 protection, which means the fixture is dustproof and waterproof
- spece for LED strip: 11.3 mm

Profile bending

Minimum internal radius	Minimum external radius
150 mm	150 mm

- minimum radius – bending radius which when exceeded causes destruction (deformation, bending or lack of compatibility with other accessories, e.g. covers, end caps, etc.) of the profile
- internal radius - refers to the profile bent so that the cover is facing the inside of the arch
- external radius - refers to the profile bent so that the cover is facing the outside of the arch
- irregular curves are possible after consultation and individual quotation
- when bending anodized profiles, one should be aware of cracking of the anode coating (which may be more or less visible depending on the radius)
