

## PRODUCT DESCRIPTION

- Designed to reach an IP67 waterproof rating
- Minimum dimensions to obtain a line of light
- Equipped with a small lock that allows the use of system fasteners and extrusion connectors

### FINISH :

Silver anodized ☐

\*Custom colors available upon request

## TECHNICAL SPECIFICATION

### Application

- for use in interior architecture in numerous configurations
- small lock facilitates building long linear, suspended, and polygonal lighting fixtures
- the sealed version can be used in external applications

### Assembly

- mounted to the surface with appropriate mounting adhesives, mounting springs or screws
- can be suspended using UCHO-ZM eye hangers, PUSZ system

### Additional information

- possibility of making a linear fixture with IP67 protection, which means the fixture is dustproof and waterproof
- the profile is suitable for bending into gentle arches, in the plane adjacent to the LED strip
- can be equipped with transparent and frosted covers, as well as aluminum-colored or metallized plastic end caps
- spece for LED strip: 14 mm

### Profile bending with covers: HS, LIGER, KA, K-BIS.

Minimum internal radius	Minimum external radius
400 mm	400 mm

- minimum radius - bending radius which when exceeded causes destruction (deformation, bending or lack of compatibility with other accessories, e.g. covers, end caps, etc.) of the profile
- internal radius - refers to the profile bent so that the cover is facing the inside of the arch

- external radius - refers to the profile bent so that the cover is facing the outside of the arch
- irregular curves are possible after consultation and individual quotation
- when bending anodized profiles, one should be aware of cracking of the anode coating (which may be more or less visible depending on the radius)

## AVAILABLE LENGTHS
