

PRODUCT DESCRIPTION

- Can be easily and quickly attached to and removed from the surface
- Conceals the light source - the brightest, contrasting element of the lighting fixture.
- Narrow light angle
- The recessed cover eliminates the gleaming effect
- Allows the use of more efficient, transparent covers without compromising the aesthetics of the lighting fixture (LED points remain invisible)

FINISH :

Silver anodized Black anodized

*Custom colors available upon request

TECHNICAL SPECIFICATION

Application

- for use in interior architecture and furniture
- for backlighting components where the light source is to remain invisible

Assembly

- mounted to the surface with the "H" bracket

Additional information

- the lighting fixture enables collision-free lighting of individual areas in the apartment and minimizes glare without causing discomfort. The concealed source of light in the MICRO-HG profile makes larger interiors with a large number of lighting fixtures more comfortable, as your eyes are not exposed to the brightest part of the lighting fixture.
- we recommend use in the kitchen under cupboards, especially in open kitchenettes; wherever you can see the lighting fixture from a sitting or lying position or from a child's height
- the fixture can be equipped with transparent or frosted covers
- space for LED strip: 11.2 mm

MICRO-HG profile

Cover	Lighting angle approx	UGR depending on the used LED strip
LIGER	90°	from 17 to 21,3
HS - frosted	85°	from 16,1 to 20,7
HS - transparent	80°	from 16,7 to 20,2

UGR < 19 when looking across to the axis of the lighting fixture
